Department for Urban Development
Agency for Planning and Building Services

Expanding the Inner City

Hovinbyen

40 000 nye dwellings
2,5 mill m² commercial buildings

Kvaliteter og utfordringer

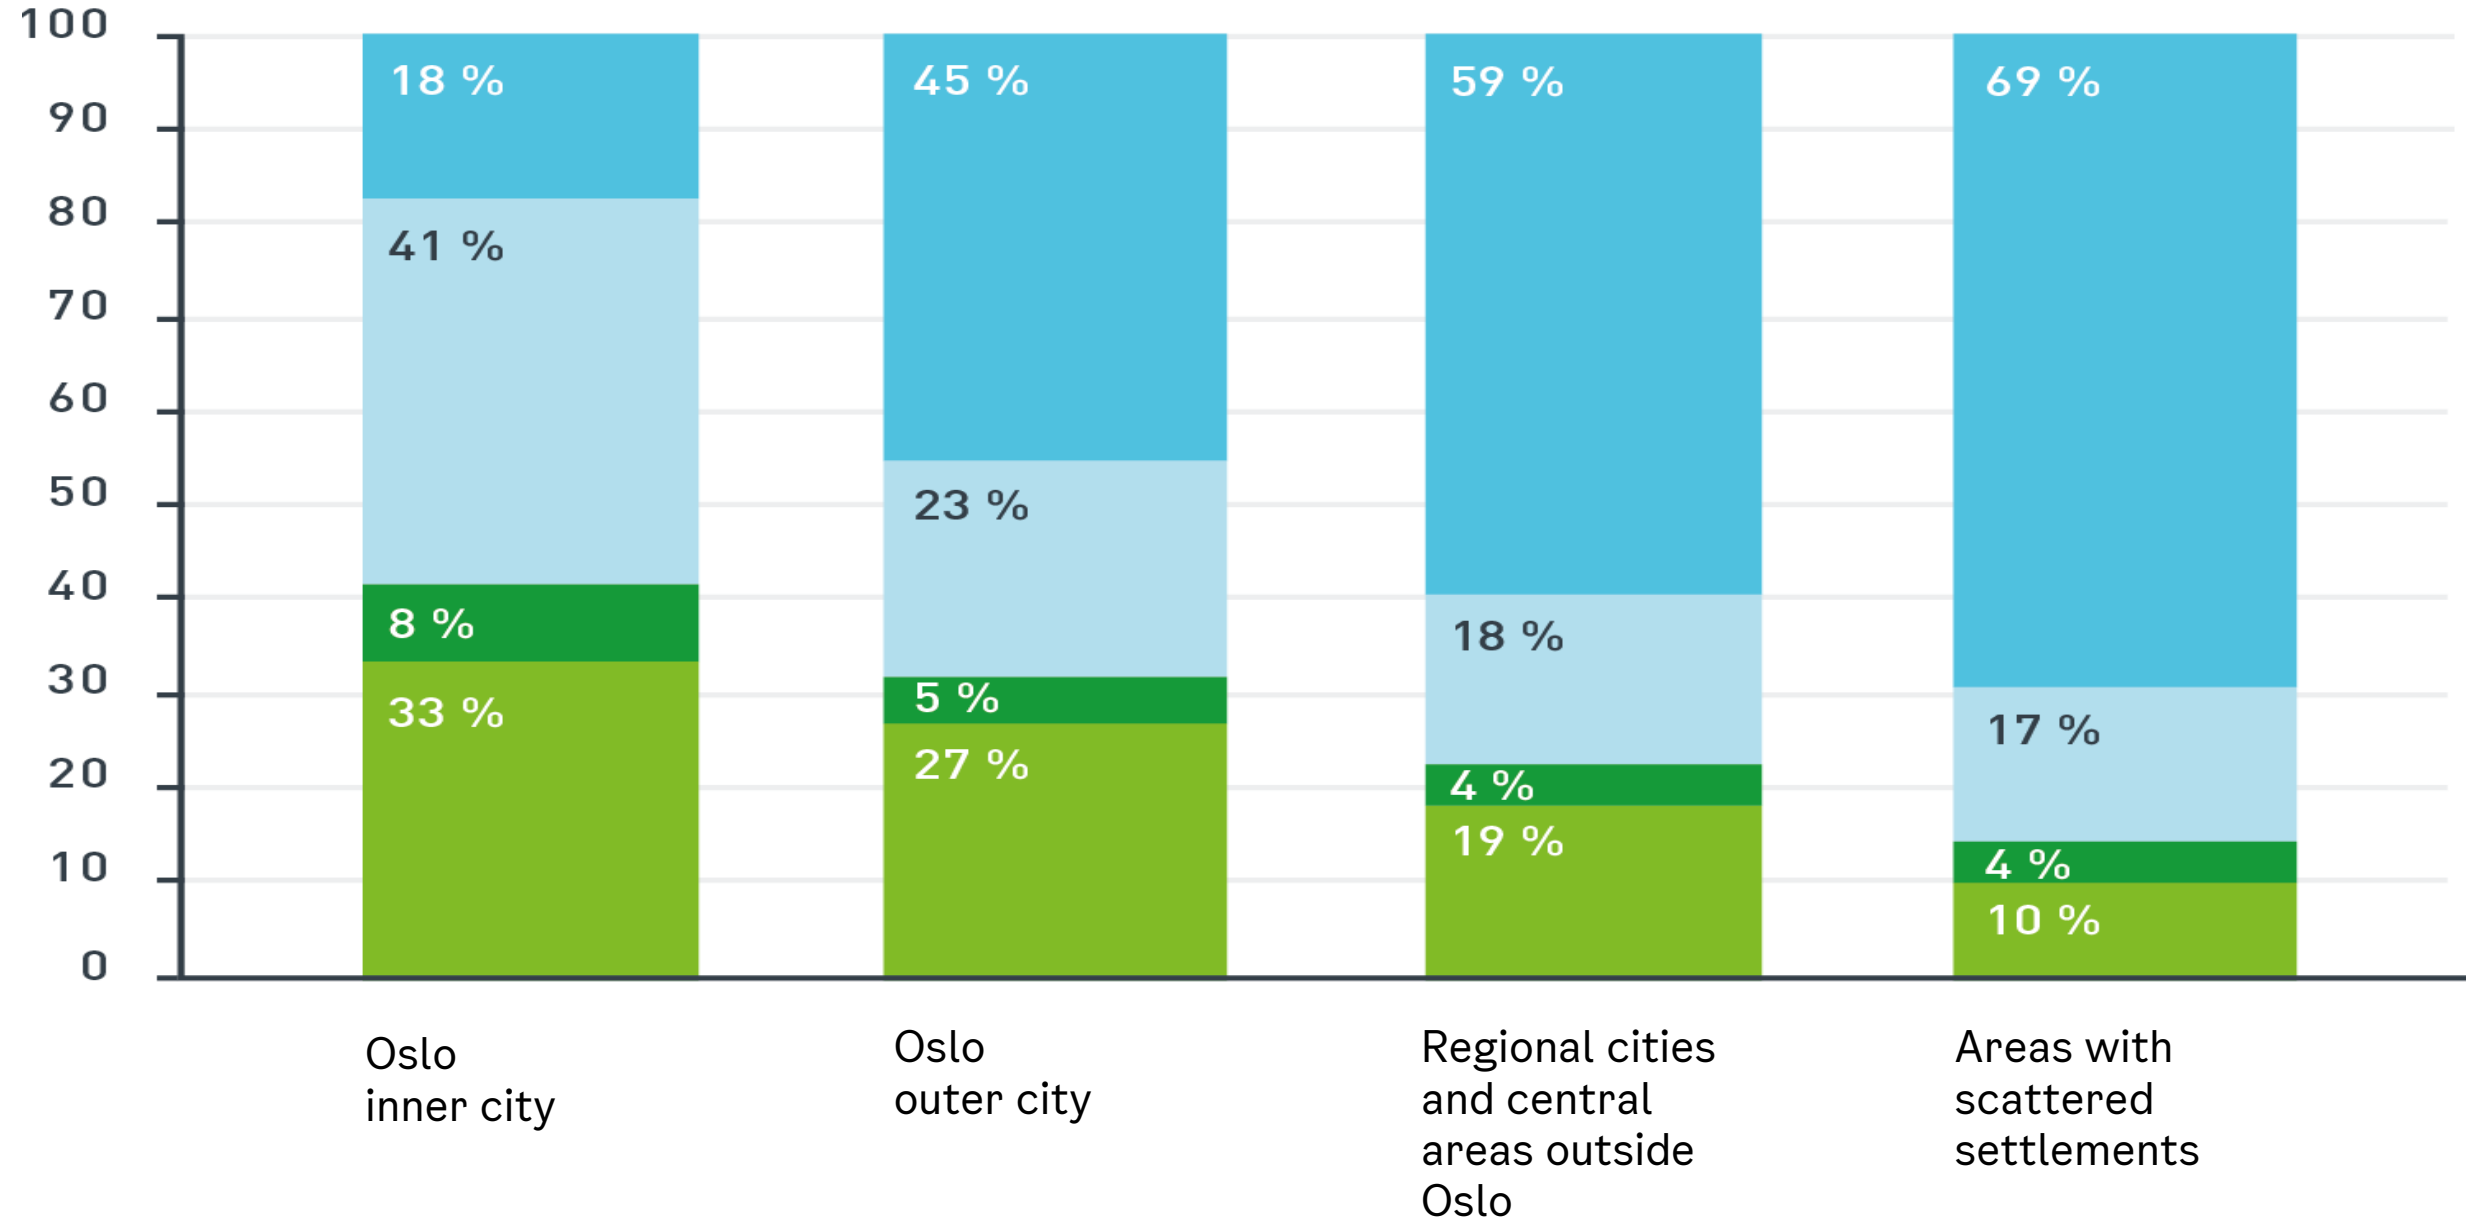

Vision for Hovindalen

Future-oriented and climate-smart urban expansion

Diversity of attractive urban areas intertwined with each other and the rest of the city.

Walking, cycling and public transport should be the easiest and most attractive ways to travel in Hovindalen.

Percent

Public transport

Bicycle

Walking

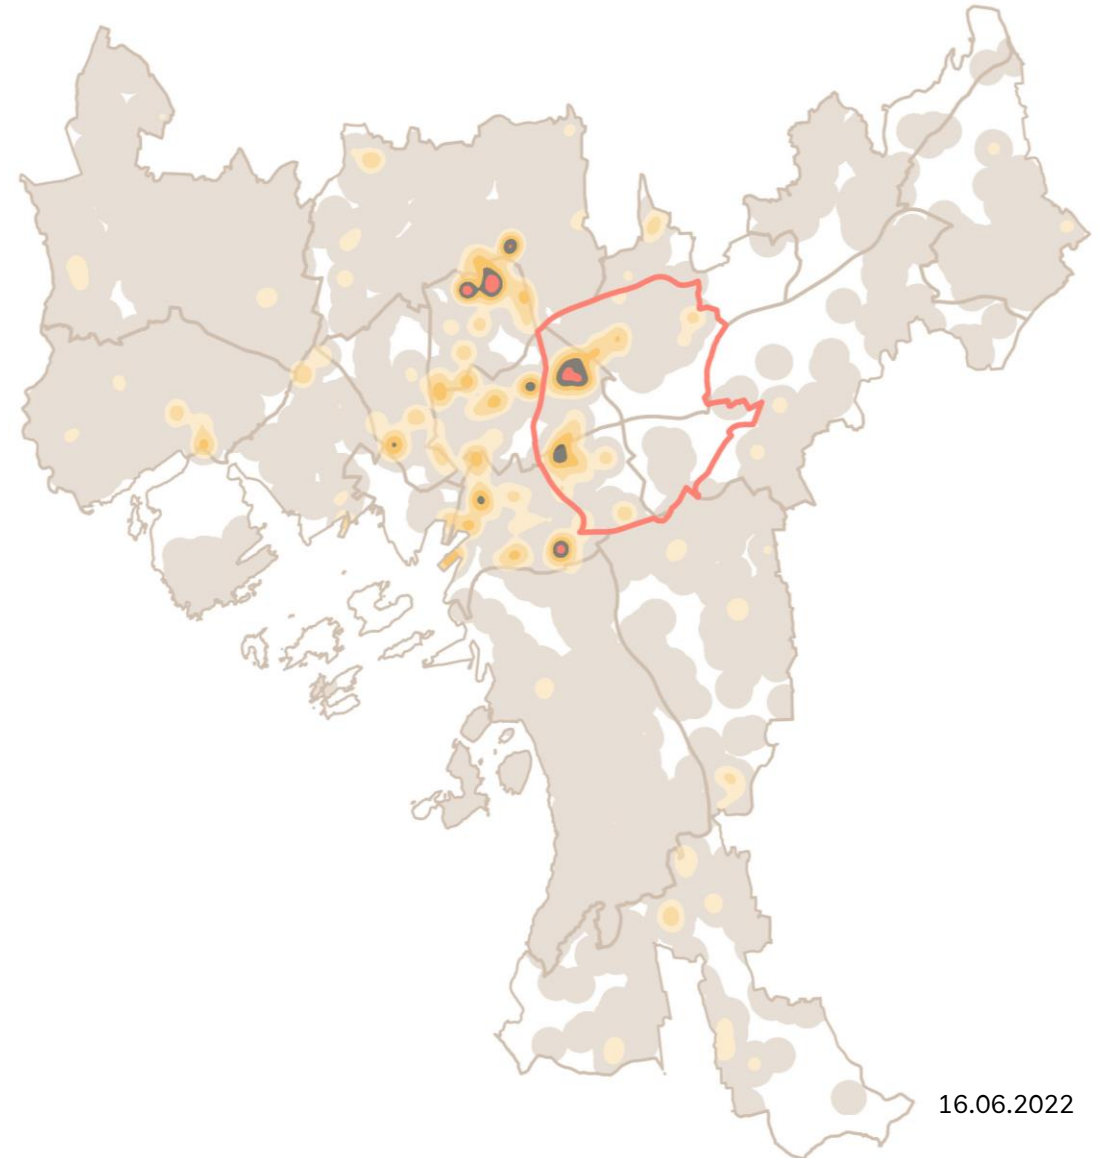

Car

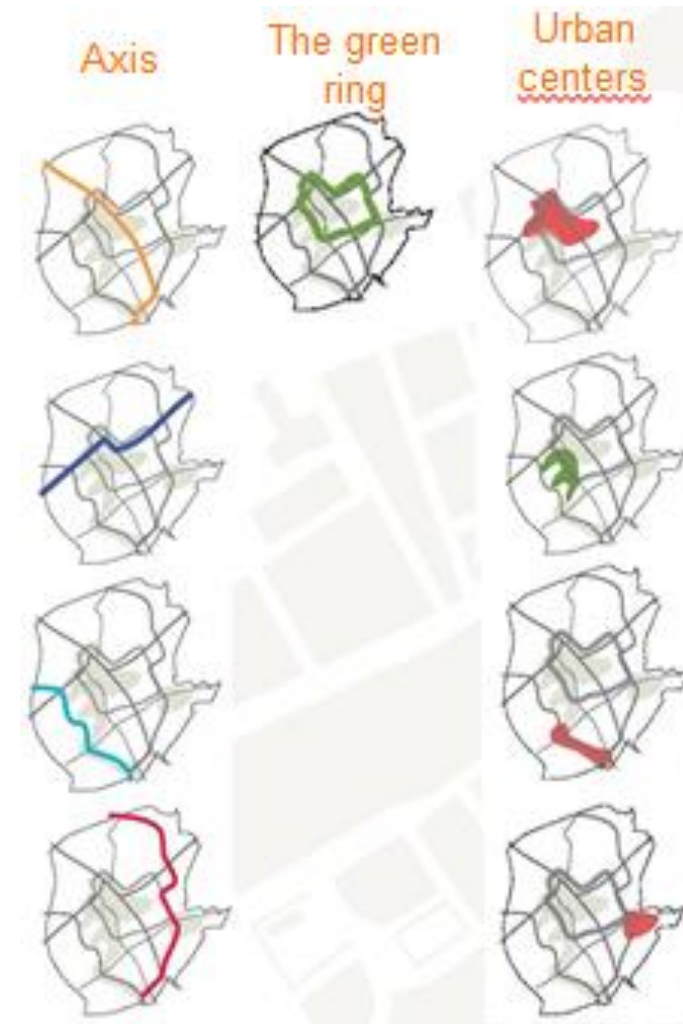

Built housing 2000-2020

67 750 dwelling in Oslo 2000-2020 among these is 12 150 built in Hovinbyen.

Strategic plan for Hovinbyen - Main concept

Network for bicycle
